SUMMARY

Technical product professional with a B.S. in Computer Science and experience shipping enterprise software, leading cross-functional initiatives, and building user-facing products. Experienced in translating business and user needs into technical solutions across product, design, and engineering teams.

EDUCATION

The University of Texas at Dallas
B.S. in Computer Science

May 2025
Richardson, TX

EXPERIENCE

Software Developer — Product & Technical Delivery
Paycom

Jun. 2025 – Feb. 2026
Irving, TX

- Delivered **50+** product enhancements, bug fixes, and workflow improvements for enterprise background-check and tax-credit products supporting **\$50M+** in client value.
- Partnered with **Product, QA, DBAs, and engineers** to translate business requirements into production changes across user interfaces, APIs, backend services, and data systems.
- Investigated recurring customer-facing reporting issues and shipped improvements contributing to an estimated **25% reduction** in related support tickets.

Vice President — Product, Programs & Operations
UX Club at UT Dallas

May 2024 – Apr. 2025
Richardson, TX

- Led **22 officers** across design, engineering, marketing, and operations for a UX organization serving **1,000+** members and collaborating with **50+ sponsors and partners**.
- Founded and led a **24-hour Design-a-thon** attracting **220 signups**, coordinating participant experience, programming, sponsorships, marketing, and event operations.
- Spearheaded an organization-wide **rebrand and website launch**, aligning designers and developers around a shared design system and consistent digital experience.
- Partnered with **5+ campus organizations** to expand programming reach to approximately **6,000 students**, using attendee feedback to improve future experiences.

Product Management Intern
TuneTunnel

Jun. 2024 – Aug. 2024
Remote

- Led design and development of an internal **React dashboard** that streamlined administrative workflows and improved team efficiency by approximately **20%**.
- Worked directly with the **CTO** to scope requirements, prioritize functionality, integrate **5 APIs**, and test features from development through deployment.
- Improved platform performance by **30%** through targeted product and technical optimizations.

Engagement Representative

Sep. 2022 – Jan. 2023
Richardson, TX

UT Dallas Development & Alumni Relations

- Engaged directly with university alumni and supporters, adapting conversations to individual needs and generating **\$3,890 across 48 pledges** through relationship-building and goal-oriented outreach.

PROJECTS

ELMO | *AI News Aggregation Platform*

- Led development of an AI news aggregation experience combining multi-source search, article retrieval, similarity ranking, and AI-generated summaries into a streamlined discovery workflow.
- Delivered authenticated user flows and serverless product functionality using Next.js, AWS Cognito, Lambda, API Gateway, and AI summarization.

Swift Cards | *AI Flashcard SaaS*

- Built and launched an AI-powered study product that generated personalized flashcards with authentication, saved decks, and subscription billing.
- Designed the end-to-end user experience from onboarding and content generation through persistence and premium access.
